Subject: ACTION REQUIRED: DW Intakes ?s

David, Kelly, and Sarah:

Paula Smith asked me to follow-up with each of you because we're getting conflicting information on the number of drinking water intakes shut down as a result of this incident.

Can you please review the information below and confirm with your DW programs that these numbers are correct. Please let me know ASAP if any changes are needed.

Also, Shaun was asked for the population served by the intakes that were shut down, I don't need this right now but when you can get those figures please send those, as well.

Drinking Water Intakes Impacted:

- CO = 2
- NM = 5
- UT = 0
- Navajo Nation = 0 *Note: One Navajo Nation drinking water intake on the San Juan River had already been shut down for unrelated reasons.*

Thanks,

Laura Jenkins
